eCommerce & Digital Marketing
Lahore District, Punjab, Pakistan

Summary

Hi, my name is Shamoon and I am an undergraduate CS student at FCCU. As a computer science student, I am passionate about learning new concepts and technologies. So far, in my freshman year at university, I've learned the fundamentals of programming with C and Python, as well as Object-Oriented Programming using Python. Alongside, I am self-learning and going through concepts of Data Structures and Algorithms. I practice these concepts on various platforms like Leetcode, Hackerrank, CS50 assignments, and labs. Additionally, I regularly update my LinkedIn and GitHub profiles. Currently, I am interning in Python at Neuclios. I enjoy participating in different competitions and leading group activities at university.

Apart from my programming journey, I have four years of experience as a Digital Marketer. I've worked in SEO, Social Media Marketing, Google Ads, Lead Generation, and E-commerce. I've managed several e-commerce startups, conducted On-Page, Off-Page, and Technical SEO for many sites, and created campaigns for Social Media Marketing on platforms like Facebook, Instagram, and Google PPC Ads. After acquiring these skills in 2019, I worked as a full-time Digital Marketing Manager and SEO expert at Digixpertz. Currently, I am working remotely with TheDigiSol as a Digital Marketing Expert. I am always open to remote work and freelance tasks in Digital Marketing and SEO, offering the best services.

As a hobby, I enjoy reading books on various topics and novels to expand my knowledge and imagination. Additionally, I love swimming and playing snooker in my free time, finding them both relaxing and enjoyable. I also have a passion for traveling and capturing moments, which I share on my YouTube and Instagram channels (You can check them out).

Alongside these activities, I'm always eager to learn and explore new things, often seeking guidance from seniors and experts. If you have any suggestions, tips, or if you need assistance, feel free to reach out to me. I'm always open to connecting with new people and exchanging ideas.

Experience

Nuclieos

Intern

October 2023 - Present (11 months)
