Profile

I am a Senior year Computer Science student who is passionate with a strong interest in Deep Learning,Aritificial Intelligence, and DevOps. My academic and project experiences have equipped me with a solid foundation in programming, development, and good enough with data. I am driven by a desire to leverage technology to solve complex problems and optimize processes. I have an intermediate understanding of Large Language Models (LLMs), including their underlying architectures, such as transformers, and their practical applications in natural language processing tasks like text generation and sentiment analysis. I am currently in the process of working on projects utilising pre-trained models, which have intrigued my appreciation for their capabilities and potential. I also acquire foundational knowledge of QA principles, including testing techniques and the importance of software quality. I am very passionate to expand my knowledge and work in both LLMs and QA. After studying courses like Deep Learning and Data Mining, employing ML/DL models and libraries in many projects, it led me to expand my research on my GEN AI and Natural Language Processing skills and knowledge base.

Education

11/2021 – present Lahore, Pakistan	**BS (Hons) Computer Science** *Forman Christian College University (FCCU)*
09/2019 – 06/2021 Lahore, Pakistan	**A levels** *Lahore College of Arts and Sciences* I studied: **-Mathematics** **-Computer Science** **-Law**

Skills

Problem-Solving	● ● ● ● ●	**Programming**	● ● ● ● ○
Python	● ● ● ● ○	**SQL**	● ● ● ● ○
Object-Oriented Programming	● ● ● ● ●	**Data Structures (DSA)**	● ● ● ● ○
Algorithms	● ● ● ○ ○	**Data Analysis and Visualisation** (Pandas, NumPy, Matplotlib, Seaborn)	● ● ● ○ ○
Team Collaboration	● ● ● ● ●	**Time Management**	● ● ● ● ○
